	Examiner Alexander Grosz	Art Unit 3673	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 30 DAYS MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3673

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-17, 19, drawn to medical chair, classified in class 5, subclass 618.
- II. Claim 18, drawn to a medical procedure, classified in class 5, subclass 1.

The inventions are distinct, each from the other because:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the medical chair of group I can be used to support a patient in various positions, for surgery or merely rest.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

If applicant elects the medical chair of group I, then an election of species will apply.

This application contains claims directed to the following patentably distinct species of the claimed invention: the species of a medical chair with a pivotable pushbar; the species of a medical chair with a pivotable foot rest; and the species of a medical chair with a rotatable seat section.

Art Unit: 3673

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3673

A telephone call was made to Mr. Weber on 2/25/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

In a brief conversation on 2/25/05, Mr. Weber indicated that in response to this action he will consider submitting claims which identify each and every element of the claims with reference to the drawings, with numerals in parentheses. Such numerals will aid in more easily "following" the claims and will help in avoiding "mistakes" but will not in any way limit the scopes of the claims.

Mr. Weber also indicated that he will consider submitting prior art relating to medical chairs with radiolucent back portions.

Any inquiry concerning this communication should be directed to Alex Grosz at telephone number 703-308-2498.
